The training on Excel Skills for Business was conducted for students of Bachelor of Pharmacy program (5th Semester), in this course of Excel Skills for Business, the students learned the essentials of Microsoft Excel. Within the training duration, students learned the Excel user interface, perform basic calculations with formulas and functions, professionally format spreadsheets, and create visualizations of data through charts and graphs. It was organized by the Career Development Centre, DIT University, the coordinator for the training was Ms. Divya Saini (Senior Executive- CIIES- DIT University).

## **Course Objective:**

Through this course students learned all the tips, tricks, shortcuts, functions and formulas that are needed to become an Excel power user. Moreover it will help students to build a strong foundation in Excel for careers in: Investment banking, Private equity, corporate development, Equity research, Financial Planning & Analysis (FP&A)

## Prerequisite:

The students of this training are expected to have a good prior understanding of the basic features available in Microsoft Excel.

## **Overview of Training:**

Microsoft Excel is something that we work in our daily life be a student or an accountant or any other business professional. While Microsoft excel is an irreplaceable part of the business field it is also widely used in other fields such as nonprofit organizations, hospitals, and educational institutions. Every one of us knows all the basic functions of Microsoft Excel but there are many

advance terms associated with it that not many are aware of. Advanced Excel today is the need of the hour and learning the skills of advanced excel can make you stand out among a big crowd of people. We train you on advance MS Excel topics to make you more productive and highly paid person in your organization.

This training course starts with the Excel basics and quickly progresses to a more advanced level where even experts will learn something new. We believe it is important to start at the bottom and build a solid base, which is why we review all the foundational skills you need before building more advanced spreadsheets. In this Excel, you will learn to leave behind the mouse and use keyboard shortcuts to dramatically improve and speed up your spreadsheet building skills. In the second half of the Excel course, you'll notice that the functions and formulas get more sophisticated and the quality of financial analysis and financial modeling become much higher. This half of the course focuses on finance-specific formulas that you would use as an analyst performing financial analysis on the job.

### **Benefits of Microsoft Excel:**

- Build great charts. Excel allows business users to unlock the potential of their data, by using formulas across a grid of cells.
- Use conditional formatting.
- Help identify trends.
- Bring data together.
- Online access.

#### **Intended Audience:**

This course has been designed for all those readers who depend heavily on MS-Excel to prepare charts, tables, and professional reports that involve complex data. It will help all those readers who use MS-Excel regularly to analyze data.
