## SDG 17

# DIT University Event Report 2022-23

**T**he advancement of the society in this age is only possible with mutual cooperation, collaboration, extending help to each section of the society and sharing of resources. The efficiency of achieving the SDGs become more while working in collaboration than an individual. This is true whether it is applicable for a person or an organization or a country. Wastage of resources must be zero and at the same time abundant resources must be generously shared with those not having access. This mutual cooperation is the fundamental principle of sustainability with involvement and participation of all. UN SDG17 aims to revitalize the global partnership for sustainable development. In line with UN SDG principle DIT University firmly believes in collaboration be it in research or resource sharing or implementation of its work culture not only inclusive but exclusive of University premises. The supportive and flexible work culture of DIT University essentially lies on the proposition of trust-integrity, employee engagement-opportunities, respect-fairness.

## **17.2.3 - Does your university as a body participate in international collaboration on gathering or measuring data for the SDGs?**

DIT University promotes its faculty members to participate in national and international conferences which address various issues at national and global level focusing on environment, economics and society. Also, University facilitates faculty members to take professional membership of national and international bodies and to do professional courses which directly deal with seventeen sustainable development goals, its planning, measuring and implementation. University faculty members also get International recognitions for as World's top 2% Scientist validated by Stanford.

As evidence, the participation certificates in courses, certificates of awards and recognitions are provided below.

Dear Tarumay Ghoshal,

Congratulations! You have been awarded with the "Introduction to Sustainable Development Goal indicators under FAO custodianship" digital badge.

This badge has been issued to you because you passed the final test of the course: "Introduction to Sustainable Development Goal Indicators under FAO custodianship", and certifies learning and specific competencies acquired through the course.

Go to your profile page at [Introduction to Sustainable Development Goal indicators under FAO custodianship](#) to see the badge you earned.

**What is a digital badge?**

Digital badges are online visual representations of learned skills and achievements earned in learning environments. They have already been adopted widely across a range of sectors and are being used to recognize both accredited and non-accredited learning in formal, informal and non-formal settings. Badges can be displayed wherever earners want them on the web, and share them for employment, education or lifelong learning.

The FAO eLearning Academy Team.
