

DIT University Event Report 2022-23

SDG-6

DIT University Event Report 2022-23

Water is essential requirement of life. If water is pure it can sustain lifeforms on the other aspect, polluted water is the cause of disaster. UN SDG 6 promotes 'Clean Water and Sanitation' ensuring access to water and sanitation for all. All stakeholders of society are having the fundamental rights to access this resource in easily accessible and clean form. Also the society must ensure the water as resource must not be polluted by human activities. Wastage must be eradicated. At present, it is becoming very difficult to obtain sufficient quantity and good quality water. All this is due to unscientific usage. Also the resource is continuously diminishing at various sources and going out of access to certain sections of society. So it is our duty to ensure the sustainability of water through pollution mitigation, judicious usage and environmental awareness. DIT University promotes this objective through its policy of sustainable water usage, reuse of waste water, conservation principle and promoting same through research and outreach activities.

DIT University Event Report 2022-23

Promotion of Sustainable water usage in the wider community

DIT University actively promotes sustainable water usage and environmental awareness within the wider community through a range of impactful initiatives. Faculty members engage in international debates and panel discussions on water conservation, bringing insights from global sustainability practices to the local context. On-Off campus, the university hosts an active tree plantation program that supports water conservation by enhancing green cover and improving soil water retention. Regular soil and water retention events further emphasize the importance of sustainable practices to mitigate water wastage and soil erosion. In addition, DIT University organizes debates, drawing competitions, and technical events tailored for school students, inspiring the next generation to take interest in environmental stewardship and sustainable water management.

DIT University Event Report 2022-23

DIT University in Collaboration with National Service Scheme local chapter participated in Cleanliness Drive all over Dehradun City for reducing pollutants loads to water resources and to ensure zero emission

The poster features the NSS Council logo at the top left and the DIT University logo at the top right. The central text reads "NSS COUNCIL DIT UNIVERSITY, DEHRADUN" and "Swachhata Hi Seva" with a portrait of Mahatma Gandhi. Below this, it states "15 September - 2 October 2023" and "Garbage Free India". A large Hindi slogan "मन में बस रखो एक ही सपना, स्वच्छ बनाना है भारत अपना।" is prominently displayed. The bottom section contains two photographs: one showing a group of people holding a banner, and another showing individuals participating in a cleanliness drive. At the bottom, the date "1 अक्टूबर, 2023" and "#Activity 4" are listed, along with the text "स्वच्छ भारत अभियान" and social media handles for Facebook, Instagram, LinkedIn, and Twitter.
