## Message from the Chairman

DIT University is distinguished by its capacity for evolution and change. In the world of uncertainties, DITU has survived as an example of resilience. Obstacles in our way have always served as a catalyst for innovation and transformation. The ability to adapt to new teaching and learning strategies has been exhibited by our teachers, and students in an impressive manner. In addition to preserving the principles of a student-centered education, DIT University has made it possible to innovate the curriculum and pursue fresh lines of inquiry in both study and research.

Owing to these characteristics, the university received "A" grade from the National Assessment and Accreditation Council of the country in May 2023. First batch of Nursing also started in July 2023. These accomplishments have served as a fitting capstone to the University's silver jubilee year. I firmly believe that our success is directly attributable to the commitment of our employees. We have made significant progress this year, and I want to personally congratulate every employee for their zeal, commitment, and persistence in advancing our university.

A high level of education, in our opinion, is the cornerstone of a country's progress. The provision of the best academic preparation to each of our students serves as our guiding concept, and we see it as our essential responsibility. Success in any field a student chooses will always depend on their ability to persevere and maintain self-control. With this in mind, we provide our students with a platform to flourish outside of the classroom by catering to their complete personality development through yearly events and activities like Youthopia. Our university has constantly defended quality and excellence, and by defending empowering ideals, we have inspired academics, staff, and students to embrace the role of responsible citizens.

In the University's ongoing quest for excellence, the faculty always take the lead. I would like to express my gratitude to all the DITU community members and express my belief that this report of events showcasing the noteworthy accomplishments of the academic year 2022-23 would be inspiring for all.

**Jai Hind!**

**Shri Anuj Aggarwal**

## Message from the Vice Chancellor

The Annual Report 2023 outlines our achievements and progress during the last one year. This year is special in the journey of DIT as we celebrate 25 years of our successful operations. From the humble beginnings as a college in 1998, we have now grown into a multi-disciplinary University. In the last few years, we have made significant progress in several areas. This year is also special for us as we attained the NAAC accreditation this year, with 'A' grade.

The University offers Undergraduate, Postgraduate and Doctoral (Ph.D.) programmes in various branches of Engineering, Technology, Physical Sciences, Liberal Arts, Pharmacy, Architecture and Management. I am pleased to notify that DITU has completed all infrastructure and faculty requirements for first session of College of Nursing & Health Professions in the next academic year and also for a new Center of Excellence on Drone Technology. In our Sixth Convocation held on 15th October 2022, a total of 1238 degrees were conferred on successful students who passed out in the academic year, including 13 Ph.D. degrees. I am pleased to note that the 18000+ strong DIT alumni community is vibrant and has made distinct mark in different domains.

We are proud of our vibrant and disciplined student community. Apart from academics, they take active part in cultural and sports activities throughout the year. Through the activities of NCC, NSS and through several clubs and associations, students interact with the society around us to understand their challenges and also help them in ways possible through activities such as health camps, swatch abhiyan, tree plantation, teaching school children, work in old age homes etc.

The university has highly qualified and committed faculty in their respective fields of expertise. They ensure that the teaching and learning environment is constantly reviewed and upgraded. DIT's efforts to enhance its Research performance has started yielding good results during the last 4 to 5 years. The University endeavours continually to create and enhance an ambience suitable for fostering research and development activities. Organizing national and international conferences, seminars and workshops is a regular activity of the university. The dedicated and qualified non-teaching staff provide the required support in every of our activities.

Apart from equipping the students with technical and professional knowledge, DITU provides an environment that encourages research, innovation and Entrepreneurship among its students and faculty. This Annual Report documents our achievements and the untiring efforts put in by every one of us in further raising the standards of DIT University.

I congratulate all our faculty, staff and students for their untiring efforts towards achieving excellence. I thank our Honourable Chairman Shri Anuj Aggarwal, Honourable Chancellor Shri Ravi Shankar and member of Board of Governors and Board of management for their constant support and guidance.
